Gloucester City CC - OneLife iD's ICE SYSTEM

As you all know, at Gloucester City CC we are serious about safety. Every time we cycle, for competition, fitness or recreation there is a remote chance that something unexpected and unwanted could happen, and having emergency, medical or contact information immediately to hand cannot only be beneficial, but ultimately save your life.

If one of these unfortunate events should happen, we want first responders to have access to your IN CASE of EMERGENCY (ICE) contact and medical information as soon as possible.

We also want fellow members to be able to get a message to anybody expecting you home to let them know what has happened and where they can find you.

So, we have worked with the team at **OneLifeiD www.onelifeid.com** to offer Club Branded Member Card and a snap off Emergency ID tag that enables first claim members to carry their details and allows first responders to gain access to whatever information you think they need, including:

Medical history, insurance details, next of kin, emergency contact or anything else you wish to disclose.

You will be provided with a Member Card and snap off Emergency ID Key Tag. The Tag is one third the size of a credit card which can be attached to bike, saddle pouch, clothing and/or keys.

Added benefits are that you can attach the ICE Alert sticker to your helmet and set up an Online OneLife ID Profile and a Mobile Phone Emergency Screensaver for even greater visibility and the ability to store and access more information.

HOW TO GET YOUR MEMBER CARD & EMERGENCY ID TAG

Go to **OneLife iD's** website https://www.onelifeid.com/

Go to SHOP, then CUSTOM TEAM ID's and then click on MEMBER CARD WITH EMERGENCY ID KEY TAG

Press the SHOP NOW button then SELECT **Your Club** then click **NEXT**

Then add the detail that will appear on your MEMBER CARD and ID TAG.

Our suggestions below and shown in the example content for card and tag images.

- Name
- 3 lines of additional personal info eg DOB, membership and/or insurance information

- 4 lines for emergency contacts
- 4 lines of medical information. This can include confirmation if you have no medical conditions, allergies or add your NHS or EHIC (European Health Insurance Card) number

Note your name, the first 2 lines of emergency contacts and the first line of your Medical Info will be used on the emergency ID key tag.

Example Content for Card and Tag
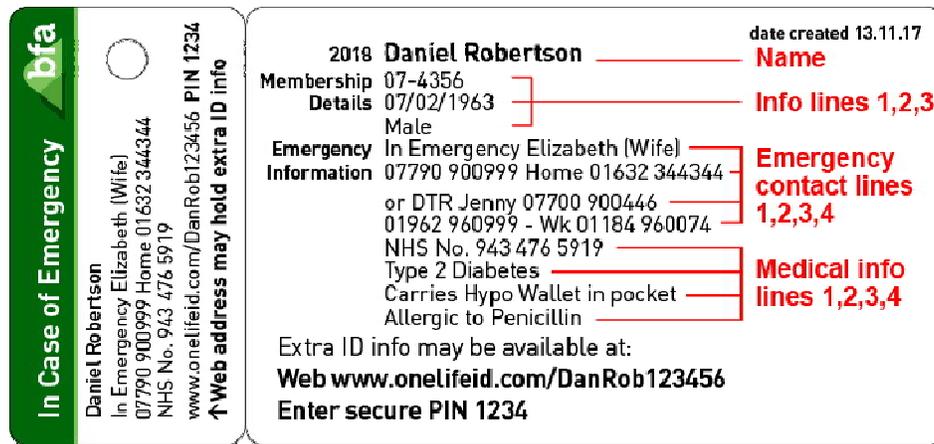

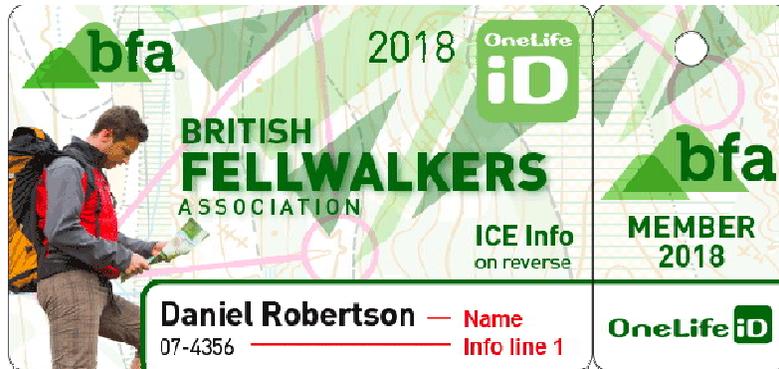

Once your personal information is complete click on **NEXT**

Then select your Profile Name. This is important as will provide a weblink for your details to be accessed in an emergency.

Once complete, click **NEXT**.
